The University of Minnesota is pleased to welcome Dr. Dan Undersander from the University of Wisconsin as the keynote speaker for the Forage For "U" Workshops.

Dr. Undersander grew up on a dairy farm in central Minnesota and joined the University of Wisconsin faculty in 1988 as the extension and research forage agronomist.

FORAGE WORKSHOP

University of Minnesota Extension Forage Workshops are designed to address key management issues relating to forage production across Minnesota. These programs focus on current production and management practices specific to different regions of the state. Topics and speakers have been selected to address timely issues based on research results in hopes of ultimately increasing producer profitability. These workshops will allow for significant transfer of data while encouraging audience participating and discussion.

Cost: $25 per participant

Registration is preferred by March 14th
