

TABLE OF CONTENTS

	<u>Page</u>
1. Weather of 1960	1
2. Soil Moisture Regime Under Corn in Southern Minnesota	2
3. Soil Productivity Study	4
<u>Soil Testing</u>	
4. Soil Testing in Minnesota During 1960	8
<u>Nitrogen</u>	
5. The Effect of Nitrogen on Wheat at Morris and Crookston, and on Corn at Crookston and Lamberton.	10
6. Nitrogen Fertilization Studies on Turf Grass.	15
<u>Phosphorus</u>	
7. Rates and Sources of Phosphate at Duluth.	17
8. Phosphorus Source Experiment at Rosemount.	19
<u>Secondary and Trace (Micro-or Minor) Elements</u>	
9. Some Field Trials With Secondary and Minor Elements on Corn.	21
10. Results of Chemical Determinations on Soil and on Corn Leaves from Crow Wing County.	22
11. 1960 Trace Element Experiments on Soybeans and Corn	24
12. Trace Element Experiment at Duluth	28
13. Boron Deficiency in Alfalfa	29
14. The Effect of Molybdenum Fertilization on the Yield and Composition of Alfalfa Grown on Some Acid Minnesota Soils.	30
<u>Lime</u>	
15. Rates and Sources of Lime at Various Fertilizer Levels at Duluth	33
16. Liming Experiments at Rosemount	42
17. Liming Minnesota Soils - Extension Folder 210	
<u>Rotations</u>	
18. The Nicollet County Plots - Soil Fertility and Crop Production Studies on the Webster Soils of Southern Minnesota.	44
19. Fertilizer Rotation Studies at the Waseca, Morris, and Crookston Branch Experiment Stations.	46
20. Manuring, Liming, and Fertilizing Experiment at Duluth.	62
21. Rates and Systems of Fertilization Experiment at Duluth	65
22. Complete Fertilization Experiment at Duluth	72

Corn

- 23. N, P, and K Experiment on Continuous Corn at Rosemount 77
- 24. The Effect of Fertilizer Placement on Root Development, Maturity, Quality, and Yield of Corn. 79
- 25. Continuous Corn - High Fertility Experiment at Rosemount. 82

Legumes

- 26. Fertilizer Experiment on Continuous Soybeans at Rosemount 84
- 27. The Effect of Phosphate and Phosphate-Potash Fertilization on the Ten Year Yield of Alfalfa at Rosemount. 86
- 28. Fertilized Legumes for Seed Production Increase Yield of Succeeding Crops. 89

Pasture Forages

- 29. Pasture Fertility and Beef Production 95
- 30. Beef Production from Renovated and Fertilized Grass Pastures. 98
- 31. The Effects of Pasture Fertilization and Stilbestrol Implants on Beef Production. 100

Potatoes

- 32. Sherburne County Potato Fertility Demonstration - 1960 105
- 33. Clay County Potato Fertility Demonstrations - 1960 106
- 34. Fertility Studies on Peat at Hollandale. 108

Grass Seed

- 35. Fertilization for Grass Seed Production in Northern Minnesota (Mineral and Organic Soils). 109

Soil Erosion

- 36. 1960 Soil Erosion Experimental Results at Rosemount. 114

Soil Structure

- 37. Soil Structure: Its Evaluation With Reference to Plant Growth and Development. 115
