

TABLE OF CONTENTS

	Page
1. Agricultural Meteorology Studies.....	1
2. Minnesota Spring Soil Moisture Situation, March 1979.....	13

Becker Experiments

3. Controlling Soil pH for Potatoes Under Irrigation (Limy Water) - 1978.....	15
4. Micronutrient Tests on Alfalfa.....	19
5. Micronutrient Fertilization of Potatoes and Corn Under Irrigation.....	21
6. Influence of Nitrogen Form, Nitrification Inhibitors, and Treatment Incorporation on Yields, and Nitrogen Utilization of Corn Under Irrigation.....	26
7. Influence of Nitrogen Rate, Timing of Nitrogen Application and Use of Nitrification Inhibitors for Irrigated Spring Wheat and Corn.....	31
8. Influence of Nitrification Inhibitors and Nitrification Inhibitor Rates on the Production of Spring Wheat and Corn Under Irrigation.....	40
9. Navy Bean Inoculation Trials--1978.....	45

Crookston Experiments

10. Weather Summary--1978.....	47
11. Copper Sulfate Carrier X Method of Application Study.....	48
12. Wheat Production as Affected by Copper on Organic Soils.....	49
13. Nitrogen Carrier X Rate X Application Time Study for Wheat-1978...52	52

Lamberton Experiments

14. Nineteen Years of Field Experimentation with Nitrogen Source, Placement, and Time of Application.....	54
---	----

Morris Experiments

15. Weather Summary.....	60
16. Continuous Corn Silage.....	61

17. Eco-Gro Studies on Corn.....	62
18. Manure Rate Study.....	65
19. Residual Effect of Heavy Applications of Animal Manures on Corn Growth and Yield and On Soil Properties.....	72
20. Influence of Nitrogen on Forage Production, Nitrogen Utilization by Three Small Grain Varieties.....	78

Rosemount Experiments

21. Pesticide Interaction Plots at Rosemount.....	81
---	----

Staples Experiments

22. Alfalfa and Red Clover Potassium Trials.....	84
23. Barley Fertilization Trials Under Irrigation at Staples in 1978.....	87
24. Influence of Nitrogen Rate, Timing of Application and Use of Nitrification Inhibitors on Irrigated Corn at Staples.....	93
25. N Rate Studies of Dryland and Irrigated Wheat and Oats With and Without Legume Underseeding, Staples 1978.....	97
26. Water Quality Studies.....	103

Waseca Experiments

27. Weather Data - 1978.....	105
28. Postemergence Application of UAN(28% N) to Corn.....	106
29. Corn Fertilization With Nitrogen Containing ACA.....	111
30. Influence of Extend Applied With UAN(28% N) on Corn Production.....	114
31. Symbex.....	120
32. Use of Terrazole as a Nitrification Inhibitor in Fall vs. Spring Nitrogen Application Program For Corn Production in Southern Minnesota.....	123
33. Amelioration of Iron Chlorosis by Coating Soybean Seeds With Iron KE-MIN.....	126

34. Conservation Tillage Study.....134
35. Lime Studies-Waseca, 1978.....141

Annual Canarygrass

36. Nitrogen Fertilization of Annual Canarygrass.....147

Corn

37. Foliar Fertilization of Corn.....149
38. Deep Sampling of Soils for Residual Nitrates and its
Potential as a Diagnostic Technique for Corn Production
in Southwestern Minnesota.....151
39. The Influence of Nitrate-Nitrogen of Southeastern Minnesota
Soils and Response of Corn to Added Nitrogen Fertilizer-1978.....155
40. Nitrogen Carryover in the Soil Profile on Continuous Corn
and Relationship to the Next Year's Yield.....159
41. Use of N-Serve in Fall vs. Spring Nitrogen Application
Programs in Fine Textured Soils in Minnesota.....165
42. High Phosphorus and Potassium Rates for Continuous Corn.....172
43. Tillage Study Summary 1976-78 Lancaster, Wisconsin.....179

Grass Seed

44. Grass Seed Production as Influenced by Fertilization.....182

Pastures

45. Pasture Fertilization Trials.....192

Small Grain

46. Influence of Foliar Applications of Fertilizer Nutrients and
Fungicide on the Yield and Protein Content of Small Grains-1978...200
47. N Rate, Source, and Incorporation Study.....204
48. Influence of Nitrate-Nitrogen Level of Various Soils of the
Red River Basin and Their Response to Added Nitrogen
Fertilizer-Wheat Fertility Research 1978.....207
49. The Yield and Protein Content of Era Wheat as Influenced by
Starter Fertilizer at Several Farm Locations in Pennington
County, Minnesota.....211

Soil Analysis

50. DTPA Soil Extract Analysis for Metals.....214

Soybeans

51. Progress Report on Foliar Fertilizers on Soybeans.....219
52. Response of Soybean Genotypes to Foliar Fertilization.....221

Sugarbeets

53. Nitrogen Fertilization of Sugarbeets in West-Central
Minnesota - 1978.....223
54. Nitrogen X Variety Interaction Trial on Sugarbeets.....230

Sunflowers

55. Fertilizer Trials on Sunflowers - 1978.....233

Wild Rice

56. Wild Rice Fertilization Research - 1978.....235
