

**Who must attend a Field Crop, Seed Treatment Recertification Workshop in 2015?** MN pesticide applicators licensed in Categories A and H or A, C and H, who last attended a workshop in 2012 need to attend an MDA approved recertification workshop. New pesticide applicators (licensed for the first time in 2014) need to attend a workshop, too. Attendance at an approved recertification workshop once every three (3) years fulfills the recertification requirement in Categories A and H or A, C and H by licensed commercial and noncommercial pesticide applicators. Some license categories require recertification more often.

**When do I renew my license, attend a recertification workshop, or retest?** License renewal is required every year, and follows recertification. Attending a 2015 Recertification Workshop enables pesticide applicators to renew their license in 2016, 2017, and 2018. If an applicator does not attend a 2015 workshop in their categories as required, retesting must be completed before a license can be renewed. Then, in addition to the license application fee, retest fees are charged for each category.

#### **Minnesota Licensing Questions**

Contact the Minnesota Department of Agriculture, 651-201-6615; fax 651-201-6105.
