182	Large Round	STRAW	Bright	Large	30	\$ 40.00	**
187	Large Round	STRAW	Bright	Large	22	\$ 35.00	**
173	Large Round	STRAW - Old and weathered			38	\$ 11.00	

1 Medium Square Straw							
186	Medium Square	STRAW	Bright		32	\$ 27.50	

I was at this sale and the relationship between price, color and physical condition was obvious - not a mystery.

\* I calculated averages here for a couple groups, but - as always - consider "averages" with caution. With a small number of lots and lots that were clearly in less than idea physical condition, it doesn't seem very useful to calculate averages.

\*\* Loads 182 and 187 were very much the same size and condition for large round straw and I could call that an average of 37.50. Load 173 looked almost as much like compost as straw.

Medium Square Alfalfa RFV 126 to 150: We could probably say green hay in good condition sold for \$95 and hay that took a bit of a hit in the weather average \$60.

This is why I like to know the range of value as well as the average.
