

National Animal ID System

Premises ID: Are You On The Map?

NAIS's Goals

- To enhance USA's current animal health response system.
 - Accuracy
 - Technology
- Strengthen the partnership between livestock producers/owners and animal health officials.

Voluntary Premises Registration

- Free, Easy, and Confidential.
- Opens communication with animal health responders.
- Allows producers to take action.
- Safeguards against a slow disease response to limit the impact on your operation.

NAIS is Flexible

- Registering your farm does not mean you must participate with the other components of NAIS:
 - Animal ID
 - Animal Tracing
- Fits into your management system
 - Ability to add technology as your management changes

Participation

- Minnesota – 11,583 premises (26.2%)
- Nationally – 362,720 premises (25.2%)
