Topics & Presenters

Barriers to Bushels

Barriers to Bushels was developed by University of Minnesota Extension to help address key management issues of corn and soybean producers in Southwestern and West Central Minnesota. Current issues and research in crop production will be discussed with the intent to ultimately help increase a producer's bottom line. This session will provide useful and timely information for producers and Ag professionals alike.

Cost is **\$45 per participant**

5 CEU's will be available
