The following pages contain a fun project that will help you practice planning and carrying out a research investigation. Use the space below to record any notes, sketches, or ideas important to the investigation.
BEFORE INVESTIGATION
What observations led to your research question?

QUESTION
Write your testable question in this space. See page 62 for more on testable questions.

DEVELOP HYPOTHESES
What are the possible answers to the research question? See page 64 for more on hypotheses.
DATA TABLE
Use this space to make a table to record data.

RESULTS
Use this graph paper to make a chart that summarizes your data.
