After a natural disaster, families face a considerable amount of stress and financial hardship. Families need resources, and they need them fast! University of Minnesota Extension's Center for Family Development offers reliable, just-in-time resources on the *Disaster Recovery* website. Here are some featured financial recovery resources.

RECOVERY AFTER DISASTER: THE FAMILY FINANCIAL TOOLKIT

Recovery After Disaster: The Family Financial Toolkit is a comprehensive, award-winning resource that helps families move toward financial recovery following a disaster. Developed in partnership with University of Minnesota Extension and North Dakota State University of Minnesota Extension, the toolkit is based on research regarding the information and actions that can make the biggest positive impact on families following a disaster. As no two families have exactly the same needs, the toolkit contains a variety of strategies and tools to help people make the best decisions for their own family's situation.
