- **Co Fair 4-H Food stand (Program)**
Develop food safety and sanitation training - deliver trainings to 4-H club members and adults in May/June. Hire food stand manager and two assistant managers, work with them to plan menu, make supplier decisions, and manage volunteers to clean and operate food stand. Begin plans/schedule 4-H club volunteers and complete lease and license applications in April, hire in May, work w/managers to plan and order in July, clean and run stand in August. Afterward, pay bills, tabulate sales, report income to Federation. (fits both Food Safety and Youth Development)

Collaborators: Various local groups donate food (ex. Bongaards donates cheese) or items (let us borrow a refrigerator during fair.)

Funding: 4-H Federation puts up money for front-end expenses (hiring advertising/lease/cleaning service for hood vents, etc.) Funds are earned via food sales during the fair. Usually net about \$9,000 profit. Many more hours as summer progresses. From 6 in April, to 20 each in May, June and July. From week before fair to week after (3 weeks total) I worked on foodstand overtime (45-60 hours per week). I don't know how to input hours/month- guess at 30/mo for 5 months.

Submitted By (Primary Work Location): Maiser, Marilyn (Carver County --- Metro District)

- **ConnectU (Program)**

This is a regional programming effort which provides staff development, application networking, and resource sharing. There have been three workshops offered in a one-year time span with approximately 350 participants. One program was offered in partnership with SSU in Marshall and two programs were offered at the SW Research and Outreach Center in Lamberton. We cover a twenty-one county area and have a broad cross-section of professionals. The targeted audience are professionals and individuals who work with youth and families. The participants provide data and input into determining programming structure and content. Because of this input, ConnectU is not just about delivering research-based information but is also evolving into facilitating application of the research at the community level. This work cannot easily fit into ONE capacity area. When the concept was originated it was under the Youth and Family Development capacity area, but it has now evolved into work within the Community Vitality area because of the facilitation of networking/partnering around community interest areas.

Collaborators: The SW Research and Outreach Center, the College of Human Ecology, Children/Youth/Families Consortium have been constant collaborators. Depending on the program content, SW Minnesota Foundation, various Family Service collaboratives, Southwest State University, PACT 4, etc.

Funding: Funding has come from participant fees, SW Minnesota Foundation, U of MN Extension Director's Grant, Family Service Collaboratives. In-kind funding has included Southwest State University and the SW Reserach and Outreach Center

- **Housing (Program)**

Housing has been a focus of the county and district during the past couple of years. It is rather an ongoing effort, tying in to other groups. I served on the district and state housing committees. It is still a concern in our small communities and is still one of the five target efforts of the new Fillmore County Economic Development Authority. I have worked with their predecessor the County Economic Development Committee and held a housing informational seminar for city EDA's. And the district had Pat Huelman down to present on seminar on indoor air quality. There is nothing specific in the planning stages at this time, just an area that someone needs to keep on the radar screen for opportunities. As a district we were doing surveys to determine direction and focus for programming

Collaborators: County EDA, city EDA's, Bluff Country HRA, County Policy Coordinator, SEMCAC,

- **When Someone You Love Gambles Too Much (Program)**
I give a monthly lecture to family members and addicted gamblers in a treatment setting on the effects of money in a gambler's hands, the role of the person handling the money for the gambler, and the cautions associated with that. There are an average of 20 people per month. I also work individually with the gambler at least once toward the end of their treatment program (30 days ave.). This is approximately 100 people per year (over the last 10 years).

• **4-H PDC/LIVESTOCK AUCTION COMMITTEE (Activity)**

Coordination of 4-H Livestock Program. This require 4 meetings a year, coordination of volunteers, and also management of certain events as dictated. THis is a time consuming process, due to the fact the summer should be my most active "in the field" with producers. My key area of work is put on hold and slipped in the cracks to manage as I do the 4-H work that presents itself. This puts pressure on me to coordinate and assist the 4-H Educator, and in turn my desk fills with request from my programming area that are never followed up on or expire. I have even utilized 3 interns that I had for other program areas to assist with county fair activities just to manage. The pressure of doing what needs to be done and what should be done needs to be addressed, but how???? The program is growing and that is great...but a program assistant is needed to assist...

- **Developing 2003 Budget for the County Board (Activity)**

Information from county board will be sent to departments in late May or early June from Jim Thoreen. The expectation usually is that the forms will be turned in some time in mid June. I usually ask to wait until after our Extension Committee Meeting and they let me do that. I also then set up a meeting with staff in the office for input and the Extension Committee sub committee. The sub committee usually does the presenting to the full Extension Com. We then send in the forms. Our office is given the opportunity to meet before the board some time in July to explain further our budget request. Some years this varies and only certain departments are asked in. Last year a budget committee member called and went over the proposal on the phone with me. At a department meeting some time in early September I get the final proposal the board will act on. Then I am expected to attend the Truth and Taxation meeting in December.

- **Evaluation of Children's Mental Health Grant (Activity)**

The Local Children's Coordinating Council received a grant in August 2000 for \$261,013 to be used between then and December 2003 for eight strategies to address Children's Mental Health issues. Extension is contracted by Family Services for overall coordination of the eight strategies including direct coordination of three educational activities ("Awesome Assets Camp", "Family Night Out", and "Educational Programming for Professionals/Families) and evaluation of the eight strategies. This is needed year round. I am personally responsible for the evaluation and the supervision of the three part-time coordinators. As part of this work I also attend quarterly meetings of the steering committee to review the strategies, the budget, and the evaluation findings, and work with steering committee to determine needed changes.

Funding: \$261,013 "Bridge" grant from the Department of Human Services with funding from August 2000 to December 2003. Last year this contract brought in \$55,000 to Extension -- about \$20,000 was used to pay the three coordinators -- and the rest is available to enhance the work of Extension. The contract is designed to be slightly less each of the subsequent years as my time devoted to evaluation is reduced. The current contract is only signed through June 30 as I wait for a decision as to whether or not Extension will continue to be providing this service. The strategies have potential for "ongoing" funding after 2003 with Family Service dollars.

County doesn't have a satellite. Use the one at the Community College. RRCC prefers not to deal with each department or agency separately. I serve as educational coordinator. Deal with agency/department on program specifics. Call college and set up room, satellite time, etc. Go to RRCC and open doors, tune in satellite, make sure room is set up, etc. Programs vary from 1-25 participants.

Collaborators: RRCC: Nancy Hauglund coordinates the rooms, Shirley Schmidt or Scott Crowe coordinate the satellite equipment.

Funding: No charge from the RRCC We do help them though when they are in a bind. Scott the primary satellite person. ON sabbatical this past year. So, I trained the two new library/media people. I help them when they don't have anyone to tune in or are having problems. During the summer, deal with continuing ed director BARb Murray, as Nancy is gone. No library/media staff, so have to do all satellite work.
