Minnesota 4-H Animal Science PDC Webinar

WHEN: THURSDAY, APRIL 7 7:00 P.M.  
(SUGGESTED CONNECT TIME IS BETWEEN 6:30 AND 6:45 P.M.)

WHERE: WEBEX MEETING NUMBER: 741 253 447

Please join us for a mid-year Minnesota 4-H Animal Science PDC Webinar.

Ideally, we encourage you to call your county PDC's together to view the webinar. We understand this looks different in each county ranging from species PDC's to one livestock PDC working with all species. We will clarify roles - what should PDC's do. We will encourage them to think more broadly of their role to include an educational component along with the normal show management. We will talk about changes in our AnSci programming and clarify questions commonly asked. We will discuss policy and share a vision of where we are headed. And there will be plenty of time for Q & A.

Please mark the date on your calendar and hopefully work it into a meeting you may commonly have with them. There should be time after the webinar for you to check in with them regarding the planning and offering of quality opportunities. We will also share curriculum resources available for project meetings with them. The webinar is not for horse PDC's. Their webinar date will be shared by Renee Kostick. Questions? Call or email your regional AnSci contact.

This virtual meeting will last about 90 minutes.

NOTE! This webinar can ONLY be accessed with a smartphone or a computer connected to the Internet (audio speakers and microphone and/or a headset are required).

TOPICS OF DISCUSSION INCLUDE:

- Clarify Roles
- Online ID
- Animal Science Updates 2016
- What’s New at the State Fair

TOCONNECT TO THE WEBINAR:

Minnesota 4-H will be hosting the webinar/conference call on WebEx. You can connect to the webinar as follows:

By computer (suggested connect time is 6:30 to 6:45 p.m.)
1. Go to http://webex.umn.edu - enter meeting number 741 253 447 and click “Join”.
2. Follow any prompts to run or install WebEx/Cisco software.
3. Once you’ve joined the meeting, click the pop-up to “join the audio conference”. You can test your computer’s speakers by clicking on the menu bar at the top “Audio”, then “Test Computer Audio”.

By smartphone (suggested connect time is 6:30 to 6:45 p.m.)
1. Go to http://webex.umn.edu
2. Click on “Join by Number”
3. Unless you have previously installed the WebEx App, you will be prompted to install it.
4. Once the WebEx App is installed, you will then be able to enter meeting number 741 253 447 and join the meeting.

Please feel free to pass this message along to anyone who may be interested.

Any questions about the agenda can be directed to Brad Rugg at ruggx002@umn.edu or 612-624-8443.

Any questions about connecting to the webinar, including testing connections and equipment ahead of time, can be directed to Karen Nelson at nelso367@umn.edu or 651-260-8088.
