Comments:
- Strengths/accomplishments
- Skills learned
- Areas to work on
- Possible new challenges
- Questions to think about

### 50% of Score

**Learning Involved:**
- Is familiar with safety rules related to bicycling.
- Is familiar with safety features found on bicycles (including helmets and protective pads).
- Is familiar with parts of a bicycle, their function and maintenance.
- Exhibitor can clearly describe new skills or knowledge gained from project work in the current year.
- Exhibitor can clearly describe how knowledge/skills were shared with others.

### 50% of Score

**Workmanship & Techniques of Project:**
- Properly cites information sources used for exhibit.
- Exhibit focuses on one idea of appropriate depth and breadth.
- Exhibit is attractive and interactive.
Modified bicycles must include safety considerations – modified bicycles without brakes, guards, reflectors or other safety equipment will be eligible for no higher than a white ribbon (unless exhibit is of a “safety hazard hunt”-type).

Exhibit may include models, diagrams, photographs, pictures, or notebook showing what the 4-H’er did or learned about bicycling.

Resources should be credited and documented in the exhibit (e.g., books, internet, 4-H or Extension publications, person with special knowledge, magazine articles, etc.).

Compare different bike styles.

Bike tool kit.

Bike maintenance/repair.

Bike safety rules.

Bicycle hazards.

How to wear a bike helmet

Setting up a bike rodeo.

Planning a community bike event.

Bicycle careers.

Journal of bicycle activities for the year.

Other ideas related to bicycles.
