Look what my friends and I discovered behind the Magical Clover Door... The Wonderful World of 4-H Projects.
4-H Projects and You!

Step 1
Fill out a 4-H enrollment card and sign up for the 4-H Cloverbud project. Discuss with your parents (or guardians) if you should order the 4-H Activity sheets or packet. These can help you explore many of the 4-H projects. Your leader can help you order them.

Step 2
Look through the Activity sheets or packet to see what you can learn about or talk to 4-H members in your club to find out what they are learning through their 4-H projects.

Step 3
Ask your leader for a special 4-H Cloverbud record which gives you lots of space to write about or draw pictures of what you did and learned in 4-H during the 4-H year.

Step 4
Ask yourself, what interests you? What do you want to learn? Who can help you? Decide what you want to do.

I made a great apple salad!

Each summer you can bring something you have made to the County Fair that shows what you learned.

Library
Words have been hidden in the puzzle. Can you find:

computer, rocketry, shop, small engines, dairy, dog, leadership, horse, pet, poultry, rabbit, clothing, food, fishing, geology, gardening, citizenship, cloverbuds, photography, clowning, creative arts, video.

Backwards Tic Tac Toe

Try NOT to get three X's in a row. Try to get the other person to end up with three X's in a row.

4-H Super Snack - Fruit Pizza!

Step 1.
Ask your parents to buy graham crackers.

Step 2.
Spread yogurt on the cracker (any flavor).

Step 3.
Add small pieces of fruit on the yogurt, like bananas, grapes, apples, oranges OR mix them together.

Step 4. Eat!
4-H Project Interview

Draw, photograph, or get a picture from 4-H members in your club.... The more the better. Interview each member and list their answers on this form. (You can make more copies).

***IDEA!!! If all the members in your club interviewed another member you could put the pages together and make a club book.

Note to Parents

We realize as you join 4-H there is a whole new vocabulary to learn. This issue focuses on 4-H projects, but what are they? 4-H projects have always been the backbone of learning in the 4-H program. Projects are “topics of interest” which cover a wide range of subjects such as arts and crafts, woodworking, pets, foods, the environment, sewing and many more. When younger youth sign up for Cloverbuds, the materials encourage them to explore a basic level of different projects areas. Then when they become regular 4-H members (about grade 3) they will know what projects they want to explore further and learn more about. A 4-H record is a form to help the member keep track of what they have learned. Your role is to help guide, support and encourage your child in their project exploration. 4-H projects help you and your child learn together.
