Welcome back to 4-H!
You have made a wonderful decision—to continue your child’s involvement in the 4-H program! During the past year you have discovered there is a lot to see and do in 4-H.
This year gives you the opportunity to help your child discover new interests or expand what they’ve already learned about.
Share your 4-H experiences with your friends. Encourage them to join you in the program.

Cheryl Clark
and the 4-H Staff
Now What?

You can learn more about a 4-H project you learned about last year. For example:

- A different 4-H project
- Get involved in a different 4-H event

Try Different Apples
For the Smiley Snack!

These apples have different shapes, colors and flavors:

- Honey Crisp: red and green (It's a Minnesota Apple!)
- Washington Delicious: red
- Grancy Smith: light green
- Golden Delicious: yellow

Smiley Snack
Cut an apple in half. Take out the seeds (with the help of an adult). Lay the apple on a plate with skin side up. To make a face, stick items on half of the apple: wire, peanut butter, etc. Here are some ideas: use pretzels for the eyes, raisins for the mouth and a gummy for the nose. You could use other fruit items like a cherry, blueberries or Olives.

Draw a picture of something you did this past year as a 4-H Cloverbud, that you liked best!
