YOU’RE INVITED!

Women in Ag Quarterly Seminar

**Women Run the Farm:**
Understanding the business and keeping my family safe

Did you know every 3 days a child dies in an ag-related incident and 33 children are injured every day?* If you are concerned about the safety and well-being of your family on the farm then join us for our Women in Agriculture Fall Seminar in Morris. Our focus for the day will be farm safety. We will talk about creating a culture of safety, spend time discussing ways to balance priorities, and also tour the West Central Research and Outreach Center to see innovations in agriculture and farming. Plan to join us for a day of learning and networking with others just like you.
